

Manual Seam Saw

MK-3000 – Manual Seam Saw for Round Food Cans

Benefits

- Manual cut
- Low deformation of can
- Secure can centering device
- Easy maintenance and blade replacement
- Safe Operation – saw only works when proximity switch senses metal can

Features

- Cut width 13 mm
- Uses two HSS or tin coated blades 100 x 22 x 0.5 mm 300 teeth
- Supports round food cans with diameters of 50 -250 mm (version for non-round cans available upon demand)

Technical Details

Operating Voltage:	115V & 220V/50 Hz
Net weight:	35 Kg
Can capacity:	50-250 mm diameter, can be modified for 300mm cans (please contact us for details)
Cutting time:	Approx. 5 seconds
Number of blades:	HSS (300 teeth, American standard upon request), 100x22x0.5 mm or 4x1x0.02" 300t
Cut width:	0.5" (13 mm)
Speed:	540 RPM
Case:	Stainless steel
Noise:	105 db
